Professional Objective

I am currently seeking to gain work experience in the field of web design and development, applying and enhancing my skills in front-end programming and web design.

Work Experience

Freelance Web Designer

Collaborated in the development and design of several websites using HTML, CSS, and JavaScript.

Worked closely with the design and development team to implement changes and improvements to the websites.

MaterialesCR

Lead creator of a website for a local small business. Designed and developed the website using HTML, CSS, and JavaScript, focusing on usability and user experience.

BShoes

Created a website for a personal entrepreneurial project selling sports shoes, using HTML, CSS, and JavaScript, prioritizing user-friendly navigation to easily find desired products

TareApp

Designed to help you effortlessly manage your projects and tasks. Create and organize projects, break them down into actionable tasks, and track your progress

Education

Universidad de Costa Rica

Currently studying Business Informatics

centro Cultural Costarricense Norteamericano

English learning | 2014-2019

Justification

Throughout my studies, I have created several websites and worked on web design projects, which have allowed me to develop technical and creative skills in the field. I have also had the opportunity to collaborate with professional web developers and designers, learning valuable practices in web design and maintenance of existing content.

My interest in working on a web project of this nature stems from my passion for design and technology, as well as my desire to apply my knowledge in a professional environment. I am eager to learn and gain work experience in this field, as I consider it essential for my professional growth.
